

Weed brush

- City Ranger 2260

Standard equipment:

- Hydraulic adjustable brushes** The flexible brushes are controlled by the hydraulic system of the machine. Their flexibility allows you to brush $\frac{3}{4}$ of the way around a lamppost.
- Support strut** Attaching and detaching is easy with the automatic support strut.
- Brush regulator** The brush regulator allows you to adjust the brush speed and direction for the best result.
- Adjustable weight distribution** For optimum functionality as well as minimum wear of the attachment.

Extra equipment (options):

- Soft weed brush** The flat steel bristles stresses and removes weeds while being gentle on surfaces. Ideal for flagstones that are susceptible to marking and need regular weeding.
- Hard weed brush** The hard weed brushes are a mix of flat steel bristles and steel wires. These are for heavy work on bigger, stronger weeds. Ideal for flagstones and asphalt paths that need regular weeding.
- Guard** The guard prevents weeds from spreading over a wide area and for collecting the weeds under the vacuum nozzle.
- Vacuum nozzle & hopper** A dedicated vacuum nozzle makes it possible to combine the weed brush with the suction sweeper hopper allowing you to vacuum the uprooted weeds into the hopper immediately. Please see data sheet on suction sweeper for details.
- Counterweight** If the weed brush is being used without the suction sweeper hopper, we recommend the use of a counterweight for balancing.

Technical specifications

Dimensions		
Length	mm	3850
Width	mm	1068
Height with cabin / roll bar (ROPS)	mm	1939 / 2060
Storage dimensions		
Length	mm	1500
Width	mm	1000
Height	mm	850
Weight		
Weight (weed brush)	kg	115
Performance		
Working width	mm	2100
Brush speed	rpm	0-114
Brush diameter Ø	mm	675
Ground clearance below suction mouth	mm	90
Ground clearance below brush	mm	330
Operating speed	km/h	2-4
CE certified according to EU directive
